HB-PET: SPEC SHEET | Clear PET Honey Bear Bottle

The Clear PET Honey Bear Bottles are designed for high product visibility and great versatility. The material, Polyethylene Terephthalate or PET, is crystal clear and provides a strong, shatterproof container unlike glass. Our signature honey bear bottles feature a 38-400 neck finish. A 38-400 neck finish consists of a single thread turn and allows for a wide variety of cap choices. The popular bear design features dotted eyes and nose and comes in four sizes of 8, 12, 16, and 32 NET WT OZ. (see below for sizing chart). Sailor Plastics packages caps and closures bundled with bottles in equal amounts. Our cap options for our Honey Bear Bottles are plentiful, choose from traditional flat caps or select our flip caps with foam liners.

Product Details

SKU	HB-PET
