

HB-32B-PET-38-400

These clear PET (Polyethylene Terephthalate) bears are designed for high product visibility and showing off the texture of your product. With a standard 38-400 neck finish, they are easy to fill. Top them off with our flip cap for easy dispensing of honey or syrup. The caps come with a pressure sensitive foam liner that seals automatically on the first tightening of the cap. These bottles are BPA free, FDA approved, and proudly made in the U.S.A.

NOTE: We advise you to test your product with the packaging to ensure product and volume compatibility.
